

BillQuick Web Suite 2011 Update Log

List of Items fixed in release 12.0.102.0 (Dated July 14, 2011 – SP2)

1. Simple Time Card: When user is using IE 9.0 with compatibility mode OFF, on saving time entries duplicates were getting created. - FIXED
2. Reviewer Screen: For Full Access user profile "Restrict Employee and Vendor to the ones I manage" setting was not working properly. - FIXED
3. Invoice Screen: Linked files associated with an Invoice were not attached to the email upon sending it to Client/Project Managers. - FIXED
4. Timer Screen: Session timeout has been handled. Now timer can run for hours and be able to log the time.
5. Timer Screen: Timer screen displays Project ID, Activity ID and Project Name in its title. This helps users to easily manage multiple timer windows by looking at title. - NEW
6. Sheet View Screen: Session timeout has been handled. Now time entry can be open for new or edit mode for hours and user will be able to save the time. -
7. Billing Review Screen: Under certain scenarios projects with Billable time were not showing. This was caused due to locking of Time and Expense entries. - FIXED
8. Project Screen: Phased projects listed below the main project were not sorted properly – FIXED
9. Project Screen: "Show Active" option was working for top level projects and not for the child projects. - FIXED
10. List Screens: Employee/Vendor/Project/Client/Activity/Expense Screen: "Show Active" checkbox setting and "Rows" dropdown value is memorized as a user setting.
11. List Screens: Employee/Vendor/Project/Client/Activity/Expense Screen: On viewing the list item details and returning back to list view would not remember the list item in the grid.

12. Change ID and Delete Record: The details are maintained in ChangeIDHistory table for Online Sync purpose.
13. List Screens: Employee/Project/Client/Activity/Expense Screen: Change feature has been added. - NEW
14. Project Screen: Under Billing tab, next to Client Contact drop down, user can click on the button to navigate to Client Contact screen. - NEW
15. Client Screen: User can navigate to Project screen by clicking on project record. - NEW
16. Billing Review Screen: Added viewing, editing time & expenses. NEW
17. Billing Review Screen: Added billing journals. NEW
18. Billing Review Screen: Write up/Write down time entries. NEW
19. List Screens: Employee/Vendor/Project/Client/Activity/Expense Screen: On opening the list screen, keyboard cursor/control focus was not correctly set. - FIXED
20. Workflow Screen: Memo was displaying rtf formatted data instead of text data. - FIXED
21. Project Control Screen: Project ID text box was not able to display the entire project list. - FIXED
22. Report Center: Some of the report filters were not working correctly. - FIXED
23. Patch Update Notification: The auto notification was not working.- FIXED
