

BillQuick Web Suite 2012 Update Log

List of Items fixed in release 13.0.36.0 (Dated June 15, 2012)

1. User Preference: Notify me feature was not able to send Alert messages. – FIXED
2. Time and Expense – When user prints - On Screen Report it would display Vendor ID instead of Project ID. This issue can be seen when View By “Vendor” is selected, next user selects “Show Memo” and then clicks on Date Column for sorting. – FIXED
3. Invoice Review: Scrolling was handled properly so that toolbar and view by filters are accessible.

List of Items fixed in release 13.0.32.0 (Dated May 25, 2012)

4. Project Center: Null exception error under certain scenarios. – FIXED
5. Project List: Null exception error under certain scenarios. – FIXED
6. Simple Time Card: Drop down list paging was not working correctly. – FIXED
7. General: Memo fields were stripping off single quotes and apostrophes upon save. – FIXED
8. Billing Review: “As Of” date filter was not working correctly. – FIXED
9. Billing Review: When user chooses only one project in From & To and on refresh it shows that project. However when user clicks on print, the report shows all the projects that have billing for that date range. – FIXED
10. Billing Review: On refresh sometime message displays “some one else is billing...” – FIXED
11. Expense Log: Expenses were not getting submitted properly if user edited existing entry before submitting it. The submitted entries were shown as Unapproved without ever being approved. – FIXED
12. Device Connector Component: (i.e. BQOAPI): Fixed regional setting time zone issue. – FIXED

List of Items fixed in release 13.0.28.0 (Dated April 10, 2012)

13. Simple Time Card: In User Preferences Default to current week setting is checked. Now user goes to Simple TC to record time for any week other than current week. On saving the time was disappearing from the actual week and getting saved to current week. This was random behavior and was caused due to session time out. - This has been fixed.

14. If Project ID or Activity ID or Expense ID or Employee ID is of multiple words and has multiple white spaces between the words e.g. Project ID = "2011 - John Doe House" . On saving time or expense entry with this Project ID resulted in an error message. It happened in all the time and expense modules in Internet Explorer Browser. - This has been fixed.
15. If Project ID or Activity ID or Expense ID or Employee ID has & character in it. On saving time or expense entry resulted in this error message. - This has been fixed.
16. Latest Help file
