

BillQuick Web Suite 2012 Update Log

List of Items fixed in release 13.0.46.0 (SP2) (Dated September 8, 2012)

1. Budget: Budget report was displaying all the budgets that were in company file instead of the selected one – FIXED
2. Estimate: Estimate report was displaying all the estimates that were in company file instead of the selected one – FIXED
3. Employee Change: Custom security templates were not showing up in security template list. – FIXED
4. Security: Expense Log security items were not in correct order. – FIXED
5. Purchase Order: Date caption was incorrect. – FIXED
6. Project: Name field was limiting to 36 characters instead of 50. – FIXED
7. Vendor Bills: Only 10 bills were showing. – FIXED
8. Timer: A new timer instance opens up on selecting the item using ENTER key in any of the type-ahead ajax list box instead of selecting the item. – FIXED
9. Expense Log: Negative expenses were showing as positive. – FIXED
10. Expense Log: When user updates the rejected expense entries, they do not show under rejected entry filter. – FIXED
11. Expense Log: When Unit Cost has 3 decimal place value, the charge amount was calculated using 2 decimal place rounded value instead of actual 3 decimal place actual value. - FIXED
12. Reviewer: Sorting was only applying to current page instead of all the pages. – FIXED
13. Employee/Project Control: Save confirmation message was not displayed. – FIXED
14. Simple Time Card: (Only in Safari / Chrome Web Browser): When an employee id is typed, the type-ahead ajax list box shows up and seem to select employee id however it only displays the letters that were typed. – FIXED
15. Simple Time Card: Global settings - Time Entry – “Time Entry should not be saved if date entered falls before ... / after ...” were not applying correctly. – FIXED
16. Time and Expense: Auto Approve settings of Employee and Project were not always working. NOTE: Auto Approve settings now supersede all security settings. – FIXED

List of Items fixed in release 13.0.36.0 (SP1) (Dated June 15, 2012)

17. User Preference: Notify me feature was not able to send Alert messages. – FIXED
18. Time and Expense – When user prints - On Screen Report it would display Vendor ID instead of Project ID. This issue can be seen when View By “Vendor” is selected, next user selects “Show Memo” and then clicks on Date Column for sorting. – FIXED
19. Invoice Review: Scrolling was handled properly so that toolbar and view by filters are accessible.

List of Items fixed in release 13.0.32.0 (SP1) (Dated May 25, 2012)

20. Project Center: Null exception error under certain scenarios. – FIXED
21. Project List: Null exception error under certain scenarios. – FIXED
22. Simple Time Card: Drop down list paging was not working correctly. – FIXED
23. General: Memo fields were stripping off single quotes and apostrophes upon save. – FIXED
24. Billing Review: “As Of” date filter was not working correctly. – FIXED
25. Billing Review: When user chooses only one project in From & To and on refresh it shows that project. However when user clicks on print, the report shows all the projects that have billing for that date range. – FIXED
26. Billing Review: On refresh sometime message displays “some one else is billing...” – FIXED
27. Expense Log: Expenses were not getting submitted properly if user edited existing entry before submitting it. The submitted entries were shown as Unapproved without ever being approved. – FIXED
28. Device Connector Component: (i.e. BQOAPI): Fixed regional setting time zone issue. – FIXED

List of Items fixed in release 13.0.28.0 (Dated April 10, 2012)

29. Simple Time Card: In User Preferences Default to current week setting is checked. Now user goes to Simple TC to record time for any week other than current week. On saving the time was disappearing from the actual week and getting saved to current week. This was random behavior and was caused due to session time out. - This has been fixed.
30. If Project ID or Activity ID or Expense ID or Employee ID is of multiple words and has multiple white spaces between the words e.g. Project ID = "2011 - John Doe House" . On

saving time or expense entry with this Project ID resulted in an error message. It happened in all the time and expense modules in Internet Explorer Browser. - This has been fixed.

31. If Project ID or Activity ID or Expense ID or Employee ID has & character in it. On saving time or expense entry resulted in this error message. - This has been fixed.
